Solutions to Practices

1. Concatenating Like-Structured Tables

```
data work.np_combine;
    set pg2.np_2015 pg2.np_2016;
    CampTotal=sum(of Camping:);
    where Month in(6, 7, 8);
    format CampTotal comma15.;
    drop Camping:;
run;
```

2. Concatenating Unlike-Structured Tables

```
data work.np_combine;
    set pg2.np_2014(rename=(Park=ParkCode Type=ParkType))
        pg2.np_2015
        pg2.np_2016;
    CampTotal=sum(of Camping:);
    where Month in(6, 7, 8) and ParkType="National Park";
    format CampTotal comma15.;
    drop Camping:;
run;

proc sort data=np_combine;
    by ParkType ParkCode Year Month;
run;
```
